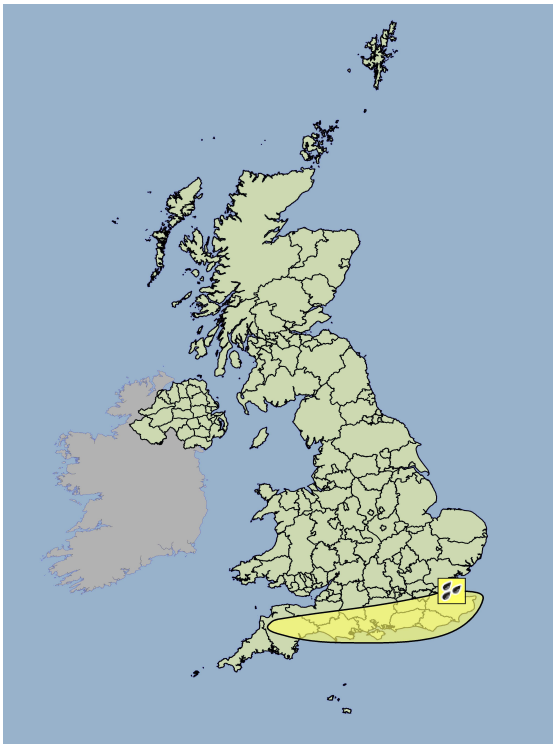
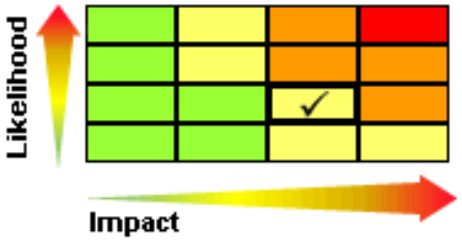
National Severe Weather Warning Service





Chief Forecasters Assessment
Heavy rain across the south and southeast of England could produce 15-25 mm of rain within a few hours, but this will clear eastwards by early afternoon. As temperatures rise, so some heavy showers and isolated thunderstorms are expected to develop, these most likely in counties bordering the English Channel this afternoon. Localised slow moving torrential downpours are possible with a risk of 20-40 mm of rain falling within 2 to 3 hours.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **09:40 on Tue, 26th Aug 2014** until **19:00 on Tue, 26th Aug 2014**

Heavy rain across parts of south and southeast England will clear eastwards by early afternoon, to be followed by the development of some slow moving thundery downpours.

The public should be aware of the risk of localised surface water flooding and standing water/spray on roads.
